

Ron Gluff, Sr. Retires

Wisconsin Division

38 Years of Service

Wisconsin Division Engineer **Ronald W. Gluff, Sr.** retired on November 30, 2005 and made his last trips the day before on Train APRPR (Proviso to Janesville and return). **Ron** hired out on the C&NW on November 25, 1967 as a Fireman and was set up to Engineer on February 22, 1974. He has spent the last 10 or 15 years working mostly the Janesville Auto train out of Proviso.

When **Ron** showed up for work at about 11:45 pm on November 30, he discovered another engineer had been called for his job and that a number of his co-workers were there to say good bye and to wish him well. Later, in the morning of the following day, the UP held a retirement party for **Ron** at Proviso with cake and ice cream. These photos were taken around midnight on November 30 at Proviso.

Ron is a member of the C&NW Vets and we sure hope he stays in touch with us. We all wish him a long retirement and the best of luck. *(Thanks to Dave Hawley for this news and the fine photos.)*
